CURRENT POSITIONS

Postdoctoral Fellow	2026 – Present
Department of Mechanical and Aerospace Engineering, Carleton University, Ottawa, Canada	
Non-Salaried Worker	2021 – Present
Aerospace Research Center, National Research Council Canada, Ottawa, Canada	

EDUCATION

Ph.D. in Aerospace Engineering	2021 – 2026
Department of Mechanical and Aerospace Engineering, Carleton University, Ottawa, Canada	
Thesis Title: Virtual Testing of Aerospace Composite Materials: Impact and Fatigue	
Supervisors: Jeremy Laliberte and Lucy Li	
M.Sc. in Mechanical Engineering	2016 – 2019
School of Mechanical Engineering, Iran University of Science and Technology, Tehran, Iran	
Thesis Title: Modeling of Matrix Cracking in The Self-Healing Composites	
Supervisor: Mahmood M. Shokrieh	
B.Sc. in Mechanical Engineering	2012 – 2016
School of Mechanical Engineering, K. N. Toosi University of Technology, Tehran, Iran	
Project Title: Design and Analysis of Pressure Vessels in Compliance with ASME Standards	
Supervisor: Mohammad Shariyat	

WORK EXPERIENCE

Intern - Airmarket-iART, Alberta, Canada	2025 – Present
Mitacs Business Strategy Internship. Developing computational tools to assist with the safety assessment of a new remotely piloted aircraft system.	
Non-salaried Worker - National Research Council Canada, Ottawa, Canada	2021 – Present
Virtual testing of composite materials. Fabrication and testing of composite specimens. Development of NCProCDM user-defined material subroutine for damage prediction in composite materials. Development of the “CompVT: Coupon” Abaqus plugin for the rapid preparation of high-fidelity finite element models. https://compvt.github.io/coupon/ . Contribution to the Five Eyes Science and Technology blind prediction challenge on failure analysis of bonded composite structures under static loading.	
Research Assistant - Composite Research Laboratory, Iran University of Science and Technology	2016 – 2020
Fabrication of composite specimens. Mechanical testing (static and fatigue). Developing codes for failure life prediction of fiber-reinforced composites.	

TEACHING EXPERIENCE

- **Aviation Management and Certification** (AERO 4009) Winter 2025
Teaching Assistant, Carleton University (Instructor: J. Day)
Guest lecturer for a session on “Composites Damage Tolerance”.
- **Lightweight Structures** (AERO 3101) Winter 2025
Teaching Assistant, Carleton University (Instructor: M. El Sayed).
- **Capstone Project** (MAAE 4907) Fall 2025, 2024
Guest Lecturer, Carleton University (Instructor: S. Ulrich)
Guest lecturer for a session on “A Practical Introduction to Finite Element Analysis”.
- **Composite Materials** (AERO 4608) Fall 2025, 2024, 2023
Teaching Assistant, Carleton University (Instructor: J. Laliberte)
Guest lecturer for two sessions on “Finite element analysis of composite materials”.
- **Engineering Materials: Strength and Fracture** (MAAE 4102) Fall 2022
Teaching Assistant, Carleton University (Instructor: A. Artemev).
- **Aerospace Design and Practice** (MAAE 3002) Winter 2024, 2023, 2022
Teaching Assistant, Carleton University (Instructor: E. Cyr).
- **Mechanics of Solids II** (MAAE 3202) Fall 2021
Teaching Assistant, Carleton University (Instructor: R. Liu).
- **Continuum Mechanics** Fall 2019
Teaching Assistant, Iran University of Science and Technology (Instructor: F. Taheri-behrooz).
- **Fatigue in Polymer Composites** Winter 2020, 2019
Teaching Assistant, Iran University of Science and Technology (Instructor: F. Taheri-behrooz).
- **Machine Design and Practice** Fall 2018
Teaching Assistant, Iran University of Science and Technology (Instructor: F. Taheri-behrooz).

SKILLS AND RELEVANT COURSES

Programming languages: Python, FORTRAN, MATLAB, C#
Finite element analysis: Abaqus, LS-DYNA, ANSYS
Computer-aided design: SolidWorks, CATIA, AutoCAD
Relevant Coursework: Advanced Composite Materials, Fatigue in Polymer Composites, Damage Mechanics in Composite Materials, Elasticity, Fracture Mechanics, Continuum Mechanics, Finite Element Method, Microstructure and Properties of Materials, Failure Prevention, Additive Manufacturing.

HONORS & AWARDS

- 2025: National Research Council Canada – Aerospace Early Career Network Best Paper Award (Third Place - \$250)
- 2024: National Research Council Canada – Aerospace Early Career Network Best Paper Award (Second Place - \$350)
- 2021: J.Y. and E.Y. Wong Award for research excellence (\$6000)
- 2016: Ranked in the top 1% in the National Graduate Entrance Exam in the field of Mechanical Engineering
- 2012: Ranked in the top 0.5% in the Iranian University Entrance Exam

RESEARCH INTERESTS

Composite Materials, Computational Mechanics, Finite Element Analysis, Fatigue and Fracture, Virtual Testing, Machine Learning.
